Echo  
Museum Bench

# IF Green's New Echo Museum Bench: Common Sense for Common Space

This bench is comfortable, versatile, beautiful and offers diametrical seating. Whether in a gallery, public space or personal loft, Echo offers a place to rest one's feet and soul — and that all-important cocktail. Storage space to house magazines and brochures make it much more than a bench.

Soft "happy" (faux) leather accentuates clean lines on a wooden platform. Tables at each corner are made with FSC certified wood. A substantial base with sweeping curved legs juxtaposed with hard angles give a powerful yet elegant look.

Printed on recycled paper
